

REMARKS

Applicants have amended the claims to improve the grammar and clarity.

Also, claim 1 is amended to add a "wherein" clause so as to specify a greater luminance change near the edge compared to the change near the center. This added clause relates to a feature specified in original claim 9 (which has been cancelled). The addition to the last paragraph of claim 1 should help to distinguish that claim over the art submitted in the February 23, 2004 Information Disclosure Statement.

New claims also are presented to provide an appropriate range of claim scope for examination.

Prompt favorable consideration of all pending claims is solicited.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 500417 and please credit any excess fees to such deposit account.

Respectfully submitted,
